

PRODUCTS. VENDORS. SOLUTIONS.

CUSTOMER FOCUS • QUALITY DRIVEN • ACROSS THE GLOBE

ELECTRICAL

Automation	Fieldbus Technology: fieldbus modules, fieldbus system solutions, software, drivers.	R Stahl
	I/O: I/O systems, Div 2 remote I/O controllers, Div 2 wireless bluetooth remote I/O.	R Stahl, WAGO
	Safety Barriers	R Stahl
	Safety: safety relays, safety barriers, light curtains, safety switches.	R Stahl, Pilz
	Sensors: proximity sensors, photoelectric sensors, position sensors, CO ₂ sensors, flow sensors, gas sensors, moisture and humidity sensors, pressure and level sensors, pressure MEMS sensors, temperature sensors.	Azbil (Yamatake), GE, IFM Efector
	Terminal Blocks: rail mounted terminal blocks, high current rail mounted terminal blocks, PBC mounted terminal blocks, chassis mounted terminal blocks, lighting connectors, plug-in connectors.	WAGO
Wireless		R Stahl
Workstations: HMI, Zone 1 and 2 PCs, terminals, monitors, keyboards.		WAGO
Control Devices	Control Stations and Control Devices: control equipment for panel/surface mounting, pushbuttons, measuring and monitoring equipment for panel mounting, grounding systems, grounding monitoring devices.	GE, R Stahl
	Signaling Devices: status indicators, rotating lights, flashing and steady-burning lights, strobe lights, hazardous duty lights, IEC and ATEX lights, warning lights, audible signals.	North American Signal, R Stahl
Lighting Systems	Lighting Systems: LED lighting, fluorescent lighting, high pressure sodium lighting, incandescent lighting, metal halide lighting, explosion proof lighting.	GE, Hubbell, Lithonia, Phoenix Lighting, Pioneer Lighting, Rig-A-Lite, Visioneering
Motion Controls	Brakes and Clutches: close coupled brakes, solenoid actuated brakes, hazardous duty brakes, armature actuated brakes, encoder brakes, bearing supported thru-shaft brakes, heavy duty clutches.	GE, Stearns
	Contactors and Relays: general purpose relays, industrial and machine tool relays, protective relays, mini contactors, overload relays, ground-fault relays.	GE
	Counters and Timers: preset timers, elapsed time indicators, totalizers, hour meters, reset timers, repeat cycle timers, sequencers, tachometers.	Eagle Signal, Veeder-Root
	Drives, Drive Systems and Parts: micro drives, decentral drives, low harmonic drive, pulse drives, general purpose drives, fan and pump drives, dynamic servo drives, low voltage drives, medium voltage drives.	ABB, Control Techniques, Danfoss, GE, Motorwise, Teco, WEG
	Encoders and Resolvers: heavy duty encoders, optical encoders, bearing-less encoders, magnetic absolute encoders, servo duty encoders, hazardous duty encoders, brush-less resolvers, frame-less resolvers.	Avtron, Danaher, Dynapar, Hengstler, Harowe, Northstar
	Motor Control Centers: low voltage motor control centers, medium voltage motor control centers.	GE, WEG
	Motors: AC/DC motors, TEFC motors, high speed motors, IEEE 841 motors, flameproof motors, NEMA motors, high voltage/low voltage motors, ATEX motors, synchronous motors, IEC motors.	ABB, Baldor, GE, Teco, WEG
	Soft Starters and Motor Starters: IEC starters, NEMA starters, fuseless starters, reversing starters, vacuum contactors, vacuum starters.	Benshaw, Danfoss, GE, Joslyn Clark, R Stahl, WEG
Power Distribution	Capacitors: fixed motor capacitors, pump capacitors, fast switching low voltage power factor correction capacitors, automatic low voltage power factor correction capacitors, high voltage capacitors.	GE
	Circuit Breakers: feeder plug-in circuit breakers, miniature circuit breakers, molded case circuit breakers, insulated case circuit breakers, low voltage/medium voltage circuit breakers, DC high speed circuit breakers.	GE

Protection Control and Metering	Generator protection, motor protection, transformer protection, distribution feeder protection, single function protection relays.	GE Multilin
Power Distribution	<p>Fuses: time delay fuses, high speed fuses, current-limiting fuses, fast acting fuses.</p> <p>Power Filters: input filters, output filters, active harmonic filters, passive harmonic filters, motor protection filters, sine wave filters, RFI/EMI filters, line reactors.</p> <p>Switchboard and Switchgear: group mounted switchboard, generator connection switchboard, individually mounted switchboard, modular switchboard, arc flash protection systems, low voltage switchgear, motor control centers, arc resistant medium voltage switchgear.</p> <p>Transformers: open core transformers, coil transformers, encapsulated transformers, CE rated transformers, dry type transformers, general purpose, single phase transformers, isolated transformers.</p>	Mersen TCI GE BEMAG, GE, Hammond Power Solutions, REX
Specialized Solutions	Dual Fuel Systems: bi-fuel management packages allow generator sets and pumps to operate on dual fuel, that is a mixture of two (2) fuels at the same time, diesel and various types of gases (natural gas, well gas, landfill gas, coal gas, propane gas, biogas and others).	Hythane
Components	<p>Carbon Brushes: industrial carbon brushes, graphite brushes, laminated brushes, fluted brushes, surface cleaning brushes, surface rounding brushes.</p> <p>Enclosures</p> <p>Plugs and Receptacles: switch rated plugs and receptacles, hazardous duty plugs and receptacles, multi-pin plugs and receptacles, high ampacity plugs and receptacles, standard duty plugs and receptacles.</p> <p>Drive Parts</p> <p>Locomotive Parts</p>	GE, NECP Hammond Manufacturing, R Stahl Killark, Meltric Corp, Control Techniques, Fincor, GE

BRANDS

Control Techniques and Fincor are Emerson brands.
 Falk and Stearns are Rexnord brands.
 Dynapar, Eagle Signal, Joslyn Clark and Veeder-Root are Danaher brands.
 Motorwise is a Technowise brand.

¹ Explosion proof / explosion protected products for hazardous locations.

WHY ARGO?

As your partner in electrical and automation solutions, we leverage our global presence and our team of industry experts to provide outstanding customer service, market knowledge and value-added services to optimize your productivity, increase your profitability, maximize energy savings, improve reliability and safety, and become your preferred channel for industrial products and solutions.

- ➔ Application assessments and optimization
- ➔ Technical application support
- ➔ Life cycle extension programs
- ➔ Motor maintenance programs
- ➔ Electronic repairs, preventive maintenance, re-manufacture and upgrades: transformers, circuit breakers, PLC cards, drive cards, motors.
